Dana, Sorry I held these up today--was out visually looking for cap impacts from a hydraulic fluid spill in the Duwamish EWW.

Let us know if you have any questions.

Subject: RE: NW Natural, Construction Design Tables & Figures and Supporting Work Plans

The priorities for the review are the two work plans. I checked the schedule in the Construction Design Report (Figure 5-1) and NW Natural shows our reviews of these two documents being completed by next Tuesday (2/7). Four working days is unrealistic given NW Natural didn't give us a heads up on what they were expecting and we wouldn't have even known unless I checked the schedule.

So in answer to your question, I'll get documents distributed here and check people's availability. Once your team gets the documents and takes a look we should discuss timeframes for expediting our reviews of the work plans.

If it works for you let's discuss coordinating reviews tomorrow early-mid afternoon...say 2pm(?).

Also I found out from Lance two of the three links in my e-mail don't work, so I'll correct those and resend. Also, Anchor is overnighting CDs of the Construction Design Report and work plans, and Treatment System Design Report to you today.

Let me know if 2pm tomorrow works and we'll go from there.

Dana

Hello Sean.

In the interest of your team getting the construction design documents sooner than later, I'm providing links to the three documents referenced above.

<ftp://deqftp2.deq.state.or.us/dbayuk/>

[Construction_Design_Report/Gasco_Source_Control_Final_Revised_Construction_Design_Report-013112.pdf](ftp://deqftp2.deq.state.or.us/dbayuk/Construction_Design_Report/Gasco_Source_Control_Final_Revised_Construction_Design_Report-013112.pdf)

ftp://deqftp2.deq.state.or.us/dbayuk/Construction_Design_Report/GascoBaseline_DNAPL_WP-final.pdf

ftp://deqftp2.deq.state.or.us/dbayuk/Construction_Design_Report/GascoUpperAlluv_PW_Design_WP-final.pdf

Note once the files open and appear on your machine, you'll need to save the file. Also, the appendices for the Construction Design Report are provided on the CDs Anchor has routed your way.

We've changed our FTP upland process so if the above links don't function let me know.

Dana
